keep me," and turned out by the

The old Mexican Presbyterian Church building down in the northeast part of town caught fire from some unknown cause and burned down about six o'clock Monday afternoon. The church was erected some fifteen or twenty years ago under the direction of Rev. Scott, a devout missionary to the Mexican people. For a while, it had an active flock but when Rev. Scott was transferred to other fields the congregation dwindled away, finally disintegrating, and for years the little church had been abandoned. It is presumed the building was a complete loss, as we know of no one to claim it, much less to keep it insured. prompt arrival on the scene of Hondo's volunteer fire fighters prevented the spread of the flames to adjacent buildings.

### "IN MEMORIAM."

A cloud of gloom settled upon our little city when it was nounced Friday morning, August 14, 1925, that Mrs. Chas. Metzger, wife of one of our leading citizens and business men of Hondo, been taken from us by death.

Mrs. Chloe Shaw Metzger born January 25, 1877, in Bexar County, Texas. The family moved to Hondo when she was but a child, where she resided, some years or more, until she was called to the home invisible.

During her student life at Baylor University she was converted, united with the Baptist Church, retained membership in same rest of her life. Mrs. Metzger ed her church and always contributed to its support.

It was on October 16, 1900, she was united in marriage to Chas. Metzger. This union was blessed with two children: Dora Metzger, now Mrs. Thomas Knopp, and Randolph F. Metzger who died at A. & M. College, May 2, 1923.

Mrs. Metzger was a devoted, a fond, loving and patient mother ever ready to give herself unreservedly for the comfort and happiness of her family. She loved home and took a worthy pride in it. A casual observer could easily cover the evidence of an intense skilful and painstaking housekeeper. The touch of her hand here, there about the home will live through the months and years, bringing fresh her memory in the lives of loved ones and friends.

She is survived by her husband, Chas. Metzger; daughter, Thomas B. Knopp of Nixon, Texas; mother, Mrs. M. E. Shaw, and sister, Mrs. M. S. Ragland, both of Mercedes, Texas; three brothers, C. Shaw, Philadelphia, Penn.; J. Shaw, Dallas, Texas and W. F. S. Mercedes Texas.

The active pall bearers were: Wilson H. F. King, Henry Morris Fritz de Grodt, D. W. Short, Monkhouse. The honorary bearers were Jacob Reilly, C. J. Dr. H. J. Meyer, Chas. Filleman, Ney, Felix Batot, Jack Fulleman, V. P. King, O. E. Lacy.

The funeral procession was of the largest seen in Hondo years. And the floral offering both large and beautiful, covered her grave and that of her son whose side now she rests. May the blessings of our kind loving Heavenly Father sustain family in this sad hour of bereavement.

"God knows the way, He is the key,  
He guides us with unerring hand;  
Some-time with tearless eyes we see;  
Yes, there, up there, understand."

HER PASTOR

[25c Story Club]

A deal of more than ordinary interest was made here this week when Carson & Smith sold all holdings, including their well known oil leases to Luther Eastham. The terms are private. The part makes this especially interesting that the well transferred in the mentioned in last week's paper was drilled by Eastham & Co. and which struck oil sand at 41 feet and had been drilled 41 feet into the same formation when drill was stopped to await a test. Eastham is confident the well will prove a profitable producer.

GEO. B. TERRELL, COMMISSIONER OF AGRICULTURE, GIVES OUT CROP REPORT FOR AUGUST 1ST. SHORTEST CORN CROP IN HISTORY OF STATE. OTHER CROPS BELOW AVERAGE. COTTON BELOW LAST YEAR'S PRODUCTION-3,450,000 BALES.

Geo. B. Terrell, Commissioner of Agriculture, gave out his monthly crop report for August 1st today. The report covers all the agricultural counties and shows the corn crop to be the shortest in the history of the state, and the cotton crop more than one million bales short of last year, and other crops below the average. The drought is not broken in all counties. He suggests road building and other public improvements to relieve the situation. The report follows:

"This report is compiled from reports of our correspondents representing over 200 counties and is as accurate as possible considering varying climatic conditions in different parts of the State, and the proneness of humanity to err. It covers conditions to August 1st. Conditions of different crops follow: Cotton 57 per cent, Corn 41 per cent, Hay 46 per cent, Grain Sorghum 50 per cent, Sweet Potatoes 53 per cent, Peanuts 58 per cent, Syrup Sorghum 48 per cent, Ribbon Cane 45 per cent.

The Corn Crop.  
"Corn averages only 41 per cent, and the crop is undoubtedly the shortest in many years. Only 25 or 30 counties in East Texas, North-east, and North Texas are producing any corn.

Cotton Crop by Districts.		
Condition	Production last	
August 1st.	year, bales	
Eastern Dist.	73%	655,466 bales
Northern "	70	847,470
Western "	58	453,945
Northwest'n "	67	892,882
Central "	36	1,485,529
Southwest'n "	43	616,097

Average 57

Total 4,951,389

"The Northern and Eastern Districts will probably produce as much cotton as they produced last year, but the others will fall short of last year's production, and the Central and Southwestern Districts will probably produce less than half of last year's yield. It is therefore estimated that Texas will produce 3,450,000 bales this year. This estimate is only an approximation and will be raised or lowered according to conditions prevailing during the month of August. It is humanly impossible to accurately forecast production at this time, as the crop may be materially increased or decreased during the month of August. Cotton picking is well advanced in the Rio Grande Valley and the Gulf Coast counties.

Private reports indicate that the cotton crop is good in most of the southern states, and they will produce a little more cotton than last year. They will barely produce enough to make up the shortage in Texas, therefore the entire crop is estimated to be practically the same as last year or about 13,500,000 bales. There is no apparent reason for a decline in the price of cotton upon every report of a shower of rain somewhere in Texas. There is a great demand for cotton and with the crop no larger than last year's production, the price should advance rather than decline. Twenty five cents per pound should be the minimum price, and unless the production should exceed 13,500,000 bales, the crop ought to average that price.

Relief For Drouth Sufferers.

The drouth in central and south-west Texas has been the most disastrous in the history of the State, and the recent rains have not relieved the situation, as the rainfall for the entire State during the month of July was only 1.54 inches, and this varied from a half inch in some counties to four inches in others. There are thousands of farmers who have made no crops at all, and they are selling their cattle and work stock for anything they can get, and are going to hunt work. There is little farm work for them to do, as only a few sections of the State will need extra labor to gather their crops. If these people continue to sell their stock and leave the farms, it will leave this great producing section of the State without labor to cultivate the lands next year.

Public Works Best Plan of Relief.

The only feasible plan that I can suggest is that the Highway Commission in allotting money for road work give preference to the drouth stricken counties and begin road building and road maintenance in those counties at the earliest possible date. Also that all counties, cities, and improvement districts in the drouth stricken area contemplating road building or other public improvements in the next year or two speed up the work and let it be started this year in order to give these people work that will enable them to feed themselves and their livestock, so they can remain on the farm and be prepared to cultivate the land next year. The situation is so serious that the farmers and business men should call mass meetings and work out a practical plan of financing the farmers this fall and for next year's crop.

**TRIBUTE TO THE MEMORY OF MRS. CHAS. METZGER.**

When the sad news was wafted to the wires that Mrs. Chas. Metzger had passed away, many hearts felt the pang of sorrow, for friends were numbered by her attainments. To know her, was to love her; for the beautiful traits that characterized a life as hers only increases love and esteem for our friends makes us long to meet them.

We can not feel that she is gone, gentle presence, and kind words so indelibly stamped in our minds and that we can but try to help the needy; cheer the distressed and unfortunate, she will be missed by a host of friends.

Home to her was a haven of rest for her loved ones and friends.

From her earthly home she has reached the beautiful mansions above by the precious son and other ones who have passed over the veil, she awaits the coming of the ones who still linger here.

She has reached her Father's home and has laid her burdens down. She has left the earthly life and is wearing the victor's crown. May God bless and comfort her bereaved ones, is the prayer of a friend who loved her.

The greater part of her life was spent in this town where she will always be remembered by her friends for her kind and charitable deeds.

The health of Mrs. Langfeld had been failing for the last three months and in spite of all that loving hands could do, the grim hand of death could not be evaded.

Mrs. Langfeld was preceded in death by her husband, Mr. George Langfeld, one son, Mr. Jos. Langfeld, one daughter, Mrs. Barbara Buchanan. She is survived by nine children, five daughters and four sons, namely: Mrs. Frank Kimmerly of Holborn, Alberta, Canada, Mrs. Guy Wilkinson, Mrs. Henry DeHart, Misses Mary and Maggie Langfeld, and Mr. George Langfeld, Jr., of San Antonio, Messrs. The pall bearers were as follows: Messrs. Joe Koch, Joe Rieber, Paul Reinhardt, Will Finger, Ben Zerr and Chas. Hubbard.

A large concourse of relatives and friends followed the remains to their final resting place, to pay a last tribute of love and respect to the departed.

**[Read] ANOTHER HONDO CASE!**

**Time-tested by a Hondo Resident**

Just another report of sickness and suffering relieved by Doan's Pills. Another Hondo case that tells of lasting benefit. What can be more convincing? Thousands recommend Doan's for backache, rheumatic pains, headaches, dizziness and distressing urinary disorders. Doan's are a stimulant diuretic to the kidneys. They have helped thousands and should help you. A Hondo case: Mrs. X. Wantz, says: "My kidneys were disordered. A dull, bearing-down pain in my back greatly increased until I had to give up. I couldn't stoop or straighten without severe pain. Doan's did me good and I gladly recommend them to others."

FOUR YEARS LATER, Mrs. Wantz said: "I think as much of Doan's today as when I gave my former statement. The cure has been permanent."
